MEMORANDUM FOR: Director, Defense Communications Agency,
Joint Data Systems Support Center

SUBJECT: 16mm Film Processing, Editing and Printing
Support

REFERENCE: Memorandum for DDA/CIA from Mr. Glenwood M.
Stevener, dtd 3 March 1988, Same Subject

1. In response to your memorandum, dated 3 March, I am pleased to inform you that the Central Intelligence Agency (CIA) will be able to support your request for 16mm film processing, editing and printing.

2. The Office of Logistics, Printing and Photography Division (OL/P&PD), has assured me that they have a thorough understanding of your requirements and will have no difficulty in meeting your proposed timetable. I also understand that any expenses related to this project will be borne by your office.

3. The CIA point of contact for this project will be [redacted] Deputy Chief, Photography Branch, P&PD, OL. [redacted] may be reached on [redacted]

3 MAR 1988

MEMORANDUM FOR DEPUTY DIRECTOR FOR ADMINISTRATION, CENTRAL
INTELLIGENCE AGENCY (CIA)

SUBJECT: Request for 16mm Film Processing, Editing and
Printing Support

1. The Defense Communications Agency (DCA), Joint Data Systems Support Center has the requirement to provide an information program on 16mm color motion picture film and video tape. This product is created for the Chairman, Joint Chiefs of Staff (JCS).
2. We request your support services for processing, editing and printing of a TOP SECRET 16mm negative film because the CIA facility is the only known laboratory on the East Coast that can handle film at the TOP SECRET level.
3. This presentation bears the unclassified working title, "RISOP 6-E". The film running time is approximately 10 minutes. We need the original product and 6 film prints to be completed by 1 August 1988.
4. In mid-January 1988, a meeting was held with your Office of Logistics, Printing and Photography Division (OL/P&PD) personnel, to assess the feasibility of possible assistance. It was determined that P&PD has the capability to do the requirement under supervision from CIA and DCA personnel. This plan has been authorized by JCS, contingent on CIA approval. JCS requires security control of the film materials be maintained by a DCA representative.
5. If further information is needed, please contact Mr. Strohl, RISOP Project Officer; or Mr. Hainke, Chief of Image Processing Branch, Commercial (202) 697-9033 or AUTOVON 227-9033.
